

We work to provide a voice for leadership and practical assistance to our many citizens with an interest in historic preservation ~ of their homes as well as their communities.

- We are developing a repository of material about proper preservation techniques and resources and the opportunities for favorable tax treatment of historic preservation efforts.
- We maintain an awareness of the many historic structures in our area and the opportunities for their restoration.
- We offer advice and suggestions for the preservation and protection of individual properties.
- We are developing presentations and workshops to educate homeowners and the interested public about historic preservation and its techniques.

We believe that all the residents of Forsyth want the best possible future for our county. Join *Preserve Historic Forsyth* in making a better future for today and tomorrow.

*Help us help protect everyone's home.  
Join or contribute to Preserve Historic Forsyth today.*

Preserve Historic Forsyth is a non-profit membership organization. It is dedicated to

supporting the preservation of architectural, community, artifacts and natural heritage of Forsyth County.

It was organized to provide a "citizen voice" for the critical decisions that are made concerning

the heritage resources of our Forsyth communities. It receives no governmental funding and is entirely supported by its members and donors.

Heritage preservation is often threatened by seemingly unrelated decisions, but which can have adverse effects on the important history we

save for ourselves and our children. Equally critical, lost preservation opportunities are usually irreversible. Expedient choices made today can

forever damage our communities.

Oftentimes, preservation is a series of small decisions that only in retrospect are seen as damaging to our overall quality of life.

Preservation is not just about saving important buildings and great homes. Saving small homes and small details can be even more

difficult, since their intrinsic value may seem less obvious and less worthy of protection.

We live in an area that is attractive to both new businesses and new residents. With this new growth comes the responsibility to protect those community assets that first attracted our newcomers to our home towns.

We are fortunate to have a number of strong and committed neighborhood associations that work hard to maintain and protect their neighborhoods.

Preserve Historic Forsyth is dedicated to providing this same commitment and protection to all our neighborhoods and cities.
